

SUBRAT CHANDRA NAHA

Cuttack, Odisha

☎ +91 8260626160 ✉ subratcandra2003@gmail.com 💻 [subrat-chandra-naha](https://github.com/subrat-chandra-naha) 🌐 [subrat0018](https://www.linkedin.com/in/subrat0018)

Education

National Institute of Technology, Rourkela

November 2020 - June 2024

Bachelor of Technology in Computer Science and Engineering (CGPA of 9.06)

Odisha, India

- Technical Courses: Data Structures and Algorithms, Analysis and Design of Algorithms, Database Management Systems, Object Oriented Programming, Operating Systems, Computer Networks

Adyant Higher Secondary School, Bhubaneswar

July 2018 - June 2020

Senior Secondary (Percentage 93.33)

Odisha, India

- Ranked **8th** in Odisha in Board exams (Council OF Higher Secondary Education, Odisha)

Experience

Mercor

Oct 2025 - Present

SDE | Backend

Remote

- Led the design and implementation** of a scalable, quality-driven referral profit-sharing system, distributing **more than \$400K/week** to referrers and resulting in a **10% uplift** in new users by prioritizing high-quality talent contributions
- Revamped the referral system to **remove tight coupling** with other services and introduced asynchronous dashboard calculations with Snowflake, achieving **50% lower dashboard latency** and **\$300/month cost savings**
- Built multiple **referral intelligence features**, including **Reputation Score and Boost Email campaigns**, shifting incentives from volume-based to **quality-first referrals** and improving expert acquisition quality
- Designed and Implemented an **internal URL shortening service used across Mercor**, improving reliability, observability, and control

Zomato

Sept 2024 - Oct 2025

SDE | Backend

Gurugram

- Shipped multiple high-impact features and fixed critical bugs, including Quick Delivery, which contributed **15% of total order value**, Gold surge fee that added **10p profit per order**, Tip Zomato, Crazy Drops, Personalized carts and several others. Handled edge cases, enabled user personalization, and dynamic pricing for smooth user experience
- Achieved a **6x reduction in Redis cache costs** by implementing Protobuf-based serialization and Snappy compression. **Reduced storage costs by 20%** by integrating Zstandard (zstd) compression for Kafka payloads after evaluating multiple compression strategies
- Optimized service performance by introducing local caching and polling, which eliminated an RPC call, **reduced latency by 30ms**, and removed dependency on an external service, leading to a **25% reduction in its container count**
- Integrated a robust testing suite that enabled aggressive and reliable integration testing across multiple dependent services. Integrated a generalized RPC that helps in benchmarking different resources in the service

American Express

May 2023 - July 2023

SDE intern *Certificate*

Bengaluru

- Achieved parser runtime optimization from **7 hours to 23 minutes** through efficient code optimizations
- Improved the observability and alerting of the system. Integrated Slack and email notification with **step-up stakeholder escalation** on incident delays to ensure faster resolution
- Investigated and **resolved** critical bugs causing data loss during log forwarding for analysis
- Utilized **log4j** and other logging frameworks for comprehensive logging

Printraverse

Feb 2023 - April 2023

Fullstack intern *Certificate*

Remote

- Designed and integrated multiple file system functionalities**, such as upload, delete, copy, move, and right-click context menu
- Significantly improved website responsiveness and system stability by successfully **resolving more than 20 frontend bugs**, resulting in an enhanced user experience.

Projects

Typing Titans | Go, Websocket, MongoDB, and React | [Github Link](#)

July 2023

- * Developed TypingTitans, a Speed Typing game application using **React and Tailwind CSS** for the frontend, and **Go, Websocket, and MongoDB** for the backend
- * Implemented both Practice/Solo and Multi-Player modes, allowing players to practice and compete against each other while visualizing real-time progress and typing speed

Achievements

- * Codechef: Maximum Rating **2123** and rated **5***. Among **Top 300 in India** and **Top 750 worldwide** [Profile](#)
- * LeetCode: Maximum Rating **2446** and rated **Guardian**. **Top 0.35** percentile among 5.5L participants [Profile](#)
- * Codeforces: Maximum Rating **1888** and rated **Expert**. **Top 500** in India [Profile](#)
- * Atcoder: Maximum Rating **1620**. Top **1** percentile among 1.53L participants [Profile](#)
- * **Eth India 2023 Winner**, securing a **\$2000** prize for the development of the SnapSwap application [Project](#)
- * Secured **23rd** rank in **ICPC Kanpur Regionals 2023** [Certificate](#)
- * Oppo Inspiration Cup **finalist** (top 20 among 9k+ participants) [Certificate](#)

Technical Skills

Languages: Go, C++, Python, Javascript, HTML/CSS, Solidity

Technologies/Frameworks/Libraries: MySQL, Redis, Kafka, Dynamodb, MongoDB, gRPC, Protobuf, Docker, Distributed Systems
